

## IN THE CLAIMS

The following listing of claims replaces all previous claim listings:

1. (Currently Amended) A portable phone having a recording function for recording audio data during telephone conversation, said portable phone comprising:

a plurality of memories (~~11~~, ~~12~~), each of which is for endless-recording, as a conversation content, the audio data during the telephone conversation;

a switching unit (~~9~~, ~~71~~, ~~72~~) capable of switching said memories from a first memory of said memories to a second memory of said memories so that said second memory endless-records the audio data instead of said first memory which endless-records, as the conversation content, the audio data until then; and

A1  
a reproducing unit (~~9~~, ~~10~~, ~~3~~) for reproducing the conversation content which said first memory endless-records before being switched by said switching unit.

2. (Currently Amended) A portable phone as claimed in claim 1, wherein said memories are constituted by a plurality of memory areas (~~11~~, ~~12~~) of a single memory device, said memory areas being capable of individually endless-recording the audio data.

3. (Currently Amended) A portable phone as claimed in claim 1, further comprising a key (~~71~~, ~~72~~) for operating said reproducing unit to reproduce the audio data;

said reproducing unit successively reproducing the conversation contents in the order of recording in which said memories records the conversation contents.
